ML Data Associate at AMAZON

EXPERIENCE

ML Data Associate I | Amazon (AWS - CXQO)

Aug 2025 – Present

- Contributed to Amazon's Just Walk Out (JWO) ML workflows through large-scale computer vision and quality analysis for AI-powered retail systems worldwide.
- Improved dataset accuracy by 18% through structured error analysis and quality control, enhancing model performance and data reliability.
- Maintained 99%+ SOP compliance across 3 active ML pipelines, ensuring zero critical annotation defects over 6 months.
- Earned 4 R&R awards in 8 months, ranking in the top 10% of associates for ownership and quality contributions.

Freelance Data Analyst | Fiverr

Mar 2025 – Aug 2025

- Built 4+ Power BI dashboards evaluating 10K+ records across multiple domains.
- Automated reporting workflows using Python and Pandas, reducing reporting time by 40%.

Business Analyst Intern | KultureHire

Oct 2024 – Dec 2024

- Reduced data preparation time by 30% through SQL and Excel automation.
- Delivered 3 KPI dashboards improving performance tracking efficiency by 20% and reducing forecast error by 15%.

EDUCATION

B.Tech in Computer Science Engineering

Jul 2021 – Jul 2025

Gyan Ganga Institute of Technology and Sciences

CGPA: 8.40/10

Higher Secondary – Science (CBSE)

Apr 2019 – Apr 2021

SMT. Sandraben Gyan Dham School

Percentage: 78%

PROJECTS

Multiple Diseases Prediction Tool (MDPT) | Python, Scikit-Learn, Streamlit, HTML, Tailwind CSS - [Link](#)

- Developed ML model achieving 78% prediction accuracy using feature engineering and hyperparameter optimization.
- Deployed as a Streamlit web app with 200+ test sessions; responsive UI built with HTML, Tailwind CSS, and JavaScript.

Food Delivery Cost & Profitability Analysis | Python, Pandas, Power BI, Excel - [Link](#)

- Examined costs across 5+ metrics, cutting operational expenses by 10% and improving margin visibility by 15%.

Tata Car Sales Analysis Dashboard | Power BI, DAX, Excel - [Link](#)

- Investigated 1,000+ sales records; identified top 5 models and YoY trends, improving reporting efficiency by 20%.

Sales Dashboards — Blinkit, OLA, Flipkart, Adidas | Power BI, DAX, Power Query - [Link](#)

- Designed 4 KPI dashboards tracking revenue and sales performance, boosting revenue visibility by 25%.

SKILLS

Programming & Query Languages: Python, SQL (MySQL, Snowflake), R Programming

Tools: Jupyter Notebook, VS Code, Google Colab, JIRA, Amazon QuickSight, Quip

Data Analytics & Business Intelligence: Power BI (DAX, Data Modeling), Tableau, Advanced Excel, Pandas, NumPy, Data Cleaning, ETL, SQL Transformations, KPI Dashboards, Trend Analysis, Performance Analysis, Data Visualization, Business Intelligence, Statistical Analysis

Machine Learning & Data Operations: Computer Vision, Data Validation, Annotation & Labeling, Error Analysis, Feature Engineering, Model Evaluation, Deep Learning (Exposure), Data Pipeline, Root Cause Analysis, Model Support Workflows, Generative AI (OCI Certified)

Professional Skills: Stakeholder Management, Business Process Analysis, Requirement Documentation, KPI Tracking, Data Storytelling, Workflow Optimization, Data Governance, Agile/Scrum, SDLC

CERTIFICATIONS

- Oracle Cloud Infrastructure (OCI) 2025 – Data Science Professional
- OCI 2025 – Generative AI Professional
- AWS Academy – Machine Learning Foundations
- Cisco – Programming Essentials in Python
- Quantium, PwC, Tata Group – Data Analytics & BI Simulations
